THE NEW YORK TIMES BESTSELLER

The award-winning bestseller by **Edwin Black**, *IBM and the Holocaust*, documents in exacting detail how IBM consciously co-planned and co-organized all six phases:

- 1) identification;
- 2) exclusion;
- 3) confiscation;
- 4) ghettoization;
- 5) deportation and
- 6) even extermination.

The twelve year alliance was micromanaged by the company's president Thomas J. Watson, directly from the New York headquarters and through overseas subsidiaries in Germany, Poland, Holland, and elsewhere in Europe. The newly Expanded Edition offers 32 pages of stunning photographic and document evidence to be presented by the author at the UNLV Boyd School of Law.

EXPLOSIVE AND STUNNING. *An explosive book... Backed by exhaustive research, Black's case is simple and stunning: that IBM facilitated the identification and roundup of millions of Jews during the 12 years of the Third Reich ... Black's evidence may be the most damning to appear yet against a purported corporate accomplice.*
