Adolf Hitler was responsible for the Holocaust – but in order to bring it about, he had help. Much of that assistance came from the factories, technologies and political support of American industrial giants. Without that support, the Holocaust could not have achieved such astronomical dimensions. To prevent history from repeating itself, the words “never again” must resound not just among the victims, but also within America’s corporate board rooms.

EDWIN BLACK

Edwin Black is an award-winning, international investigative author. He has written 200 editions in 20 languages in 190 countries, as well as scores of newspaper and magazine articles in the United States, Israel and Europe. His work focuses on issues including human rights, genocide and hate, and historical investigation. Black has appeared on hundreds of network broadcasts for his human rights investigations, which also have been the subject of numerous documentaries. Some of his books include *IBM and the Holocaust*, *War Against the Weak* and *The Farhud*.
